

OUR PROGRAM

The House of Hope is a voluntary, faith-based residential program for men 18 and older who truly desire freedom from addiction. Since 2014, more than 300 men have entered the program, and the majority have experienced life-changing transformation—returning to their children and families as productive, faithful members of the community.

Our comprehensive program combines Bible study, worship, counseling, 12-step programs, work therapy, skills training, financial literacy, and volunteer activities. Each man receives an individualized treatment plan built on the grace of the Gospel and the 12 steps. Addiction recovery requires a spiritual change of the heart and mind before the body can be healed, we focus on restoring the whole person and preparing them for lasting success.

FACTS & FAITH

80,391 overdose deaths in 2024. Fentanyl accounted for 60% of those deaths.

There were 82,805 emergency medical (EMS) responses to drug overdoses in Florida in 2024.

12 Step Programs help by offering connections with other people with similar experiences which in turn helps decrease the self stigma and shame that people have around their addiction. Allowing healing to begin.

God doesn't just save you from your past - He calls you into your purpose.

OUR MISSION

At the House of Hope, our mission is to provide a structured, faith-based residential program that restores men to their families and communities as productive citizens. Through the Gospel and the 12 steps, we offer grace and sobriety, while our experienced and dedicated team addresses underlying issues with individualized treatment plans. Our approach promotes healing for the mind, body, and spirit, preparing men for lasting transformation and long-term success

OUR VISION

The House of Hope is a Christian, nonprofit residential program dedicated to helping men find life-changing freedom from addiction. Led by an expert team of caring professionals and committed leadership, we provide the support and treatment each man deserves for lifelong recovery. Our vision is that graduates will be equipped to re-enter the workforce as productive, contributing members of society—resulting in stronger families, safer neighborhoods, restored lives, and a reduced economic and social cost of addiction.

OUR NEW FACILITY

Our newly developed 5-acre campus has been thoughtfully designed to provide a safe, supportive, and inspiring environment for recovery and personal growth. The grounds feature a beautiful chapel for worship and reflection, comfortable residential housing that fosters community, and well-appointed classrooms for structured learning. A fully equipped computer lab and a resource-rich library offer the tools needed for education, job readiness, and life-skills training. Surrounded by open space and a spirit of hope, this campus is more than just a facility—it's a place where lives are rebuilt. We are honored to welcome our first group of new students beginning mid-September 2025, and look forward to walking alongside each one as they take courageous steps toward a transformed future.

MESSAGE FROM THE EXECUTIVE DIRECTOR

"I'm thrilled to see God moving in this ministry. With two new buildings on our 5 acre campus, we have more room to welcome men, build community, and walk the 12 steps together with Christ at the center. I'm honored and excited to serve men who are ready to get clean and sober."

— Oliver P. Roberts, B.S.W.

CLIENT TESTIMONIAL

"House of Hope gave me more than sobriety – it gave me a relationship with God, purpose, and my family."
